

Italtergi at Caravan Salon: Innovating leisure mobility

Italtergi, leader in the production of wiping systems for off-road applications and electric motors, took part in the prestigious Caravan Salon in Düsseldorf. The international trade fair, dedicated to campers and mobile leisure, was held from August 28 to September 6, 2025. The event hosted 783 exhibitors across 16 halls, offering a comprehensive overview of campers, caravans, and equipment for every outdoor need.

Italtergi's participation was a strategic opportunity to strengthen relationships with long-standing clients and to present its technological solutions to potential new partners. The company showcased three of its gear motors - **ITG31**, **ITG42**, and **ITG90** - widely used in motorhome and industrial applications. Official website: [Caravan Salon Düsseldorf](#).

ITG31/ITG42 - Ideal for **motorized step** movement, these compact and versatile gear motors offer starting torque from 26 Nm to 45 Nm and nominal torque from 4 Nm to 5 Nm. Available in various configurations, including single or dual-speed versions and 12V or 24V power supply, they ensure flexibility and reliability in every setup.

ITG90 - Designed for large-scale wiper systems and heavy-duty industrial applications, this gear motor is widely used in **camper bed lifting** systems. It delivers up to 80 Nm of starting torque and 12 Nm of nominal torque. Its power, compact size, and irreversibility make it an ideal solution for complex motion systems.

Since 1995, Italtergi has been a key player in the camper and motorhome sector, offering highly specialized wiper solutions for Europe's OEMs leading converters. **The company develops custom wiper systems for large windshields**, such as those in recreational vehicles requiring wide wiping areas and reliable performance in all conditions.

Thanks to its consolidated know-how and direct network of contacts with OEMs and converters, Italtergi has built a prestigious client portfolio over time, including brands such as LAIKA, MOBILVETTA, and ELNAGH. The wiper systems designed for motorhomes are comparable to those used in Grand Touring buses and are made with top-quality materials to ensure continuous, safe operation.

Press Release

10.09.2025

Italtergi's custom systems continue to be integrated into high-end motorhomes, confirming the company's commitment to tailor-made solutions.

Luigi Coppini, Key Account Manager at Italtergi, commented: *"The Caravan Salon was the perfect stage to showcase our products' quality and reliability. We were pleased to meet long-time clients and initiate new collaborations, gathering valuable feedback to strengthen our presence in the camper sector."*

Events like the Caravan Salon reaffirm Italtergi's commitment to staying updated on industry trends and maintaining direct dialogue with the market to offer increasingly targeted and innovative solutions.

Italtergi is a leading Italian brand in wiping systems for off-road vehicles and electric motors. With a strong commitment to innovation, the company continuously invests in research, development, and advanced industrial automation to deliver high-performance, reliable solutions tailored to the most demanding customer needs.
